## Specifications

Type		Low deck	High deck
Cab		Standard	
Engine		2.6 diesel (Natural aspiration)	
Displacement (cc)		2,607	
Bore x stroke (mm)		91.1 x 100	
Compression ratio		22.0 : 1	
Max.Power (PS / rpm)		80 / 4,000	
Max.Torque (kg-m / rpm)		17 / 2,200	
Transmission		Manual	
Type		5-Speed	
Clutch		Dry type with single friction plate	
Disc. facing diameter (Outside x Thickness)		240 x 8.8	
Wheel type		Steel	
Wheel size		Front 5.5J x 15"	6.0J x 15"
		Rear 4.0J x 13"	6.0J x 15"
Tire size		Front 195 / 70R15C-8PR	195 / 70R15C-8PR
		Rear 145R13C-8PR	195 / 70R15C-8PR
Spare tire		Full-size 2ea	Full-size 1ea

# H-100

# Professional

Sleek and modern, the H-100 is a real beauty. But it's also a beast thanks to its powerful engine and ruggedly built ladder frame. When it comes to handling the bigger jobs, the H-100 proves more than capable but it also takes on the smaller ones with marvellous efficiency.

**Driver seat adjustment system** allows sliding and reclining to keep you comfortable and relaxed. The lumbar support feature is exclusive to higher trim models.

**Efficient design** The gauge cluster features a simple but modern layout that is pure pleasure to the eyes. The speedometer and tachometer dials are large and easy-to-read, day or night. The standard equipment package includes an LCD odometer and trip computer.

**5-speed manual transmission** Exclusive to the naturally-aspirated 2.6 engine, the 5-speed gearbox is notable for its remarkably smooth and efficient shifting, exceptional durability and low noise.

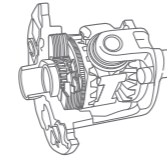

**The perfect cabin temperature** Centrally mounted with large, easy-to-use dials, the climate control system helps keep the driver and passenger fresh and alert. Air conditioning is optional.

# Advantages

## Depend on it

H-100 powertrains are tried and true. Day in and day out, these workhorses are designed to work around the clock, seven days a week with a minimum of preventive maintenance requirements. The H-100: a truck you can truly depend on.

**Locking differential (LD)** When driving over soft, muddy or uneven road surfaces, you can suddenly lose traction and control of the vehicle. The Locking differential (LD) ensures that you get maximum traction. It is automatically activated at speeds over 30kph and is more efficient than a Limited slip differential (LSD).

**80PS/17kg·m**

**2.6 diesel engine** The naturally aspirated 2.6 diesel employs single overhead cams and delivers 80PS @ 4,000rpm and 17kg·m of torque at 2,200rpm.

## Features

- 01 Hood
- 02 Power window controls
- 03 Side step
- 04 Tool-box
- 05 Brim cover & tailgate bolt
- 06 Wide view outside mirror
- 07 Glove box
- 08 Bottle storage & door map pocket
- 09 Room lamp & sunglasses holder
