

New IONIQ 5

The beauty of electric innovation.

Breathtakingly beautiful and amazingly advanced, the new IONIQ 5 continues redefining the way people look at electric cars. With its innovative concept car design and an astonishing array of smart tech, it's ready to take you farther with ultra-fast charging and sleeker style.

Concept car design in series.

The new IONIQ 5 showcases a fresh and innovative approach to electric vehicle design, bringing the futuristic concept car aesthetic to the UK. This exciting update maintains the original concept's essence, with new energy in the design.

The new IONIQ 5 showcases a simple and clean design that sets it apart from other electric vehicles. The clamshell hood of the car spans the entire width, creating a seamless and high-tech appearance. The LED lighting features unique jewel-like design elements called Parametric Pixels, which are present in all IONIQ models.

Live, drive, work, relax.

With our dedicated electric vehicle platform, we have been able to create an interior that offers a completely new in-car experience, redefining both living space and moving space.

Inside the new IONIQ 5, we have blurred the lines between living space and moving space. Our E-GMP platform enables us to completely reimagine the interior, providing a whole new in-car experience. The spacious, flat floor, highly adjustable front seats that can be fully reclined, and a sliding centre console that can be moved back and forth, combine to create a more relaxed driving experience.

Feature highlights.

The new IONIQ 5 redefines mobility with its wide array of high-technology convenience features that are as unique as they are smart and a pleasure to use. Additionally, new IONIQ 5 supports the electric mobility lifestyle with its innovative V2L function, which lets you freely use or charge any electric devices, such as electric bicycles, scooters, or camping equipment while on the move or at a specific location.

Spacious Interior

E-GMP allows for unique interior designs in electric vehicles, providing a spacious front area by relocating the AC system from inside the car to the space freed up by replacing the engine with an electric motor.

12.3 "Touchscreen and 12.3" Instrument panel

The 12.3" infotainment touchscreen gives you access to all settings including connectivity to your phone via Bluetooth, or Apple Car Play / Android Auto, giving you control over your preferences and customisation of settings.

Vision Roof

Create a greater feeling of space and calm from the inside and the cool effect of a two tone roof from the outside.

Digital rear view mirror

Enjoy perfect rear view visibility even when you've got luggage blocking the rear window. When activated, the Digital Centre Mirror uses a camera to project a real-time display onto the mirror.

Feature highlights.

Digital side mirrors

Enjoy a clear view of what's happening on both sides of the vehicle – even in bad weather conditions. Digital Side Mirrors give you a wider angle view compared to traditional mirrors.

BOSE premium sound system

The BOSE® premium sound system delivers stellar performance with eight high-performance speakers optimally tuned to deliver amazing sound.

V2L

With new IONIQ 5's Vehicle-to-Load technology (V2L) you can power any device or charge electrical equipment up to 3.6kW with the on-board 230V socket.

Highly adjustable electric seats

The Front Relaxation Seats available with the optional Zen Pack or Tech Pack Max are adjustable in 8 ways and can fold flat for a power nap. When fully reclined a calf support pops for relaxing leg support. The sliding electric rear seats are also available in the option packs.

Camera-based monitoring systems

The updated new IONIQ 5 is available with a range of camera-based monitoring systems that give you a better view of what's going on around you in traffic. Enjoy clearer, wider-angle visibility in all kinds of weather with Digital Side Mirrors and a Digital Centre Mirror. And for easier and safer parking, the Surround View Monitor gives you a bird's-eye 360-degree view of everything around your vehicle.

Distinctive. Iconic. Pure.

The front.

The front bumper is defined by a newly refined V-shape incorporating distinctive hidden lights that provide an unmistakable light signature.

The side.

Taut and perfectly proportioned. The side graphics are highlighted by auto-flush door handles that enhance the clean look and aerodynamics.

The rear.

The evocative design of the redesigned rear bumper and hatch harmonises powerfully with the rectangular Parametric Pixels rear light signature.

The new N Line, taking things up a notch.

Inspired by the award-winning IONIQ 5 N, we have created an exclusive new IONIQ 5 N Line model to capture its thrilling, high-performance looks, both inside and out.

Car shown not to UK spec.

Living the feeling.

To enter the N Line cockpit is to feel its motorsport roots instantly. It's all in the details. From the branded sport seats in luxurious materials to the sports-inspired steering wheel. Even the start button and air vents exude the performance feeling.

The performance inspired sport seats keep you in control and comfortable. They feature the exclusive N Line embossing, red contrast stitching and red piping. The N Line Seats are cloth and leather, while N Line S features the upgraded Alcantara seats.

Intuitive and ergonomic, the redesigned centre console enhances the in-cabin experience by relocating the phone wireless charging pad, cupholder and the buttons for seat heating and parking cameras closer to the hand of the driver and passenger.
